## **Background of the Department of Agricultural Extension and Rural Development (AER)**

The Department of Agricultural Extension and Rural Development is one of the largest Departments of Bangabandhu Sheikh Mujibur Rahman Agricultural University (BSMRAU) under the Faculty of Agriculture, established in 1992 along with other 10 old departments. The department has been offering graduate program leading to MS and PhD degrees.

Through interaction with farmers, the department teaches the application of new insights and scientific research in agricultural field. In addition to the primary aim of providing higher education in this specialized field, this department is assisting, collaborating and providing services to teaching, research and outreach staffs in designing and developing instructional material to improve their efforts in education, outreach and dissemination of research information.

Research facilities are available in Extension and Rural Development using the farmers' situation as a social laboratory. Major research thrusts are identifying constraints to agro-rural development including ecosystem service management as well as sustainable agriculture related issues, developing alternative extension methods, strategies and approaches and extension teaching methods and techniques. Besides, the adoption and diffusion of agricultural innovations and their sociocultural barriers along with the development of feedback mechanism on farmers' reactions to new technologies are also the prime research areas of this department. Moreover, several other research areas have also been focused by this Department, including, utilizations of GIS in agricultural-extension, precision agriculture including good agricultural practices, research on higher education quality improvement, and also agriculture policy related issues.

The Department has nine (09) prominent faculty members with sound academic, teaching and research background, comprising 5 (five) Professors, 2 (two) Associate Professors, and 2 (two) Assistant Professors. The outstanding performances of the faculty members have placed this Department on a unique position which is supported by more than 350 published articles, more than 2000 citations in different researches, awarding 34 PhD and 202 MS degree, so far. Due to strong academic, research and alumni association activities, the Department of Agricultural Extension and Rural Development might be No. 1 choice of many previous and prospective students.

Vice-  
Chancellor Bangabandhu Sheikh  
Mujibur Rahman  
Agricultural University  
Gazipur-1706

### Message

I am very much delighted to hear that the Department of Agricultural Extension and Rural Development (AERD), Bangabandhu Sheikh Mujibur Rahman Agricultural University (BSMRAU) is organizing its 1<sup>st</sup> Annual General Meeting (AGM) of the alumni of the department. I congratulate all the alumni, students, teachers, officers and staffs of the department for taking such a delightful initiative.

BSMRAU, recognized as the 'Center of Excellence in Higher Agricultural Education and Research', operates its activities following prescribed academic calendar focusing on three important visions of education, research and extension since its establishment. As an outcome, the university has achieved the several national and international recognitions. The university achieved first position in Scopus and Scimago rankings of world universities in research, innovations and social status, and also the Annual performance Agreement (APA) for the year 2021 and 2022 among the public and private universities of Bangladesh. I have no doubt that these honors and recognitions will motivate us to be more responsible and dutiful about our own task.

I hope that the alumni and teachers of the department of Agricultural Extension and Rural Development may contribute to build the 'Smart Bangladesh' as announced by our honorable Prime Minister Sheikh Hasina through dissemination of modern and appropriate agricultural technologies to the end users. At the same time, AERD alumni can also help in the expansion of BSMRAU technologies through their advice, cooperation and active participation.

I wish bright future for all the alumni and look forward to have unique event of this year and in the coming year.

(Prof. Dr. Md. Giashuddin Miah)

### Message

It gives me great pleasure to let you know that the first Annual General Meeting (AGM) of the Alumni Association of the Department of Agricultural Extension and Rural Development, Bangabandhu Sheikh Mujibur Rahman Agricultural University (BSMRAU), will take place on July 22, 2023. The Department of Agricultural Extension and Rural Development of BSMRAU has a long history of teaching, learning, and research like other major departments of this university. I am delighted to know that 236 Alumni have already received their Postgraduate (both MS and PhD) Degrees, with 34 PhD from this Department. The Department's achievement makes me proud. It makes me so honored as a part of BSMRAU that the graduates of the Department of Agricultural Extension and Rural Development are now engaged themselves as successful professionals in their respective fields including Government Administration, top class Extension Professionals, University Professors or Researchers in different research organizations of both home and abroad.

I appreciate the quality efforts of the Alumni to form this Alumni Association which will be helpful to accelerate the whole Agricultural Extension Community as well as will improve the current students' professionalism. I do hereby admire the Alumni's efforts to organize the inaugural AGM and a souvenir that includes a directory of every Alumni. So far, I know, this is the first departmental Alumni Association of BSMRAU.

I am looking forward for the success of this Alumni Association and their 1<sup>st</sup> AGM.

**Professor Tofayel Ahamed**

Dean, Graduate Studies  
BSMRAU, Gazipur

It is with great pleasure and honor that I extend my warmest greetings to all the alumni on this auspicious occasion—the First Annual General Meeting of the Agricultural Extension and Rural Development Alumni Association. As the Dean of the Faculty of Graduate Studies at Bangabandhu Sheikh Mujibur Rahman Agricultural University, I am immensely proud of the achievements of our alumni and the establishment of this remarkable Alumni Association.

This AGM is a testament to the dedication, expertise, and unwavering commitment of our graduates to the field of agricultural extension and rural development. Your exceptional contributions have had a transformative impact on communities, driving socio-economic progress and sustainable development. The knowledge and skills you acquired during your time at our esteemed university have propelled you to become catalysts for positive change in the agricultural sector and beyond. I am extremely happy to know that alumni of AER are going to gather here in BSMRAU to celebrate their accomplishments and to create a platform for meaningful engagement and collaboration. This Alumni Association will serve as a bridge between our alumni, faculty, and students, fostering a spirit of unity and shared purpose. It will provide a unique opportunity to reconnect, strengthen professional networks, and engage in knowledge exchange that will further enhance the collective impact on the agricultural landscape.

As you embark on this journey together, it is important to recognize the challenges faced by the agricultural sector and rural communities. Climate change, technological advancements, and evolving market dynamics present both opportunities and obstacles to sustainable development. It is through collaboration and collective effort that we can address these challenges effectively. This Alumni Association, with its diverse membership and wealth of expertise, will be well-positioned to lead the way in finding innovative solutions and driving positive change. I encourage each and every one of you to actively engage with the Alumni Association and contribute your knowledge, skills, and experiences to its growth and success. Your participation and involvement will be vital in shaping the activities and initiatives of the Association, ensuring its relevance and impact in the years to come. I believe that all our alumni will seize this opportunity to forge strong bonds, mentor the next generation of agricultural professionals, and create a legacy of excellence in the field. I extend my deepest gratitude to the organizing committee and all those involved in making this AGM a reality. Your hard work, dedication, and commitment to fostering a strong alumni network are truly commendable. I would also like to express my gratitude to our esteemed alumni, whose presence and support reaffirm the values of our university and the enduring spirit of our community.

I congratulate the alumni of AER for coming forward to form this remarkable Alumni Association. May this AGM mark the beginning of a new chapter in your collective journey—a chapter filled with collaboration, innovation, and transformative impact. Hope this gathering will strive to build a brighter future for agricultural extension and rural development, leaving a lasting legacy for generations to come.

**Professor Dr. GKM Mustafizur Rahman**

Associate Professor & Head  
Dept. of Agricultural Extension and Rural  
Development, BSMRAU, Gazipur

It's a great pleasure for me to know that the first AGM of the Department of Agricultural Extension and Rural Development Alumni Association will take place on July 22, 2023. The department of Agricultural Extension and Rural Development is one of the oldest departments of Bangabandhu Sheikh Mujibur Rahman Agricultural University. A total of 202 alumni have earned Master's degrees, while 34 alumni awarded PhD from this department. I myself feel proud to be an alumnus of this department. All of the department's graduates are now successful professionals in their various industries which is elevating the profile of our department and university both nationally and internationally. The main goal of our Alumni Association is to accelerate this continuity. So, after many uphill climbs our 1<sup>st</sup> AGM is going to be held. Where we are extracting our memory through a souvenir.

This souvenir is a small attempt to take you back into memory lane and is meant to remind us of the lovely days that we had as young graduates full of hopes. We wish that these bits of history, long forgotten and buried in our subconscious will rekindle the hopes that we always strived for and the values we stood by. Hope this little effort from the AER alumni association will help you flip back a few pages in your university life histories.

As the Head of the Department of Agricultural Extension and Rural Development, I am immensely proud of the achievements and contributions our alumni have made in different fields. This 1<sup>st</sup> AGM serves as a testament to the enduring bonds we have formed over the years. It provides us with an invaluable opportunity to reconnect, reminisce, and forge new connections that will undoubtedly strengthen our ties as a cohesive community. Our shared experiences, knowledge, and passion for agricultural extension will create a powerful foundation upon which we can build and grow together. Furthermore, this occasion would not be complete without expressing our deepest gratitude to our distinguished faculty members, mentors, and supporters who have played a pivotal role in shaping our academic and professional journeys. Their unwavering dedication, guidance, and expertise have been instrumental in molding us into the professionals we are today.

As we are gathering, let us not only celebrate our accomplishments but also recognize the challenges that lie ahead. By leveraging our collective knowledge and expertise, we can chart a path towards a sustainable and inclusive agricultural future. Together, we have the power to make a lasting impact on the lives of farmers, rural communities, and the overall well-being of our society.

Finally, I would like to thank all the alumni who timely helped us by way of sharing information, pictures as well as contributing financially, and I would also like to thank different government and private organization for contributing financially with advertisement.

I look forward for the best of the alumni association.

**Dr. Muhammad Ziaul Hoque**

Brooklyn, USA (Former Director,  
GTI, Ex-Head, AER, BSMRAU)

### Message

#### **Some dreams come true: a short memory of an alumni dream**

It gives me immense pleasure that under the able leadership of some Departmental teachers of AER and particularly the singular efforts of Dr. Afrad, my long-felt Alumni dream is going to come true. A meeting is going to be held on 22/07/23 to make some strategic plans and tactical efforts in this connection. May Almighty bless all the innovators and their noble undertakings. My good wishes and prayers are for all of you.

We often have dreams in our life, but seldom have they come into effect. Fortunate are those who experience some of their dreams come true. Thank Almighty, I am one of these few ones who have this experience. While I was at BAU, I dreamed for the leadership development of Rotaract Club member. Virtually, I took the all-out efforts for the development of Rotaractors' Training Camp (RTC) at Rotaract club of Agri-varsity. It is a nation-wide program of the Rotaract clubs of Bangladesh now. I had also the dream of developing the teaching techniques of BAU teachers, after I had exposure in this regard from the USA and UK in the mid'80s. With all-out hindrances from BAU teachers, Dr. Halim and I uphold this banner and arranged Training of Trainer (TOT) for some young teachers of BAU at a very small scale. Later on, Dr. Mozhar Ali as the national coordinator of HEQEP gave it a nation-wide scope. But its original program and context areas were prepared by me. I still remember, I worked with Dearden of Wolverhampton Polytechnic (later became University) of UK as local counterpart to develop this course outline. I personally, took interest to include contents like non-verbal communication listening skills, gender issues, assessment methods etc. in TOT. At that time, some other TOT experts of UK namely, Bobkowlaski, Mary Underwood etc. also worked with DAE, BAFRU and some NGOs to develop TOT. But the impact created by TOT of GTI during my time was perhaps the most outstanding. Over a decade, it played the most dominant role throughout the country. I am grateful to God that this blessings were with me all the time to fulfill my dream. I always nurtured it with affection.

My last dream was to form an AER alumni at BSMRAU when I retired from my active service in 2011. I wanted to refresh my beautiful memories as Adjunct Faculty, Head and visiting professor of AER, BSMRAU. The issue was discussed with some departmental teachers and also some AER PhD holders. Although many showed interest but could not make it happen due to many lapses. The only exception was Dr. Afrad who kept it blazing in his mind all the time. In the meantime, my wife and I came to USA in 2017 and the COVID pandemic kept us away from our normal works from 2020 till 2022. But even then when I came to Bangladesh in vacations, I kept myself informed about it from Dr. Afrad. I also reviewed the draft constitution prepared by him and talked in person about some suggestions to reach our goal. I think our plane is at 'take off' stage now form a memorable trip. Thanks to Afrad.

It is the way of Almighty that when an action proceeds from man, its effect is duly manifested by Him. Let it be a unified effort by all the members concerned, not a single man show of Dr. Afrad. In the Holy Quran (53:38-40) it is stated: 'No bearer of burden shall bear the burden of another. And that man will have nothing but what he strives for. And his striving shall soon be seen'. From this we can learn that everyone should do his/her duty and as we sow, so will we reap, if we try hard better effect will be seen soon. May Almighty help us all to reflect on it and be benefitted from the same. May He show mercy on everybody.

**Prof. Amir Hossain**

Former Professor and Head, Department of Agricultural Extension Education, BAU  
Former Dean, Faculty of Agriculture, BAU  
Former Director, GTI and BAUEC, BAU  
Former Rector, IPSA, Ministry of Agriculture  
Former Professor and Head, Department of Agriculture  
University of Technology, Papua New Guinea

I am glad to hear that the Department of Agricultural Extension and Rural Development, Bangabandhu Sheikh Mujibur Rahman Agricultural University (BSMRAU), is going to organize the first annual general meeting of its Alumni Association since the establishment of the Department in 1992 along with other 10 Departments. As a former Rector of the then Institute of Post Graduate Studies in Agriculture (IPSA now BSMRAU), I specially congratulate the organizing committee for initiating this Annual General Meeting (AGM) of the newly established Alumni Association of the Department.

Through this message, I am also pleased to let others know that in the then East Pakistan, I was the first student and only one student who got admitted to pursue his M.Sc. in Extension Education in 1966 in the then Department of Agricultural Extension and Teachers' Training under the Faculty of Agriculture, Bangladesh Agricultural University (BAU), Mymensingh. This Department was a new Department of BAU and also the nomenclature of the degree was quite unknown to all of us. So, taking risk but with hope and aspiration, I took the role of an innovator to get admission in this unknown Department and in a new degree program. I was advised by many not to get admission in this Master's program except two teachers of this Department named late Prof. Dr. Serajul Islam Bhuiyan (Head of the Dept.) and late Prof. Dr. Anwarul Karim. Before registration to this subject, I finally, approached to the then Vice-Chancellor of BAU late Dr. S.D. Chowdhury to get his opinion. He was very happy as I went to seek his opinion. He inspired me very much and explained the prospects of this new professional field. Anyway, there are several other stories on this issue which I wrote in another article published by the Graduate Training Institute (GTI) of BAU. New students were scared for getting admission in this Department of BAU until the duration of the M.Sc. Program was cut down to one year in 1970.

The above short background of the initial status of Agricultural Extension as a discipline indicates how difficult it was to establish this subject as an academic degree offering subject for the growth and development of Agriculture. Even when I was appointed on deputation as Rector of the then IPSA in 1995, I heard that some teachers of IPSA objected to establish the Agricultural Extension and Rural Development Department. They wanted to offer this subject by the Department of Agronomy without establishing this new Department. But now, I myself and all others are proud of this Department for taking leading role in teaching, research and providing services to the community at home and abroad.

Thanks to the Alumni Association, especially Prof. Dr. Afrad who asked me to write a message for this august occasion and for invitation on behalf of the Department.

Finally, I appreciate Prof. Dr. Md. Giashuddin Miah, Vice- Chancellor, BSMRAU for providing all necessary cooperation and logistics in organizing this important event as a first of its kind at the Departmental level of this prestigious university providing leadership at home and abroad.

At the end, I hope that BSMRAU will initiate extending services and conduct rural development activities involving students in the course, especially around the university. The department of Agricultural Extension and Rural Development may take leadership in the program.

**Professor Abdul Halim, PhD**

**Note from Alumni Association (AER) BSMRAU, Ad-hoc Committee**

**Member Secretary**

**Convener**

Our warmest greetings to all Alumni AER, BSMRAU on our Grand Reunion and Alumni Homecoming!

Alumni Homecomings: the reuniting of many familiar faces, the recalling of memories, the challenges and goals that were aimed before drifting apart. Yes, this is an event where everyone come to relive the "Glory Days" within their beloved AER department and recapture the joy of once-being a student.

Congratulations to the teachers and all attending participants who are coming to make this Grand Alumni Homecoming a success. We hope that you will continue to make this kind of activity successful because this will serve as a foundation of unity not only for the present but also for the future as well.

It is a matter of great regret that we the members of convening committee formed in 2018, committed to form a full fledged Alumni Association (AER) committee within a short time but could not do the same due to predicaments along with world-wide contamination of COVID-19 which took many lives of our near and dears. We tried our level best to prepare a draft constitution of our association with the vibrant influence of our reverend Professor Md. Amir Hossain and also discussed it sometimes with the members of convening committee. It will be great ungratefulness if we don't mention the continuous inspiration of Professor Md. Amir Hossain sir without which it might not be possible to initiate the process and come to the present nascent position.

May this Alumni Association of AER and its members continue to live under the banner of the AER, with our standards of excellence and professionalism, and take arms in addressing the ever-changing needs of our society in this new millennium.

May you all enjoy a remarkable and unforgettable reunion as formal alumni association of AER, BSMRAU graduates which is going to be held for the first time of its kind at the departmental level.

.....  
**Dr. FM Mahbubur Rahman**

.....
